## ABOUT ME

Ph.D. candidate in Innovation Economics specializing in the effects of digital transformation on the labour market, with a focus on robotization and generative AI in developing countries. Prior experience in the economic inclusion field. Seeking to contribute to international research with knowledge of core innovation economics, development economics and econometric techniques.

## WORKING EXPERIENCES

Milan, Italy  
April 2023-Jan 2024

### Financial and Economic Inclusion Analyst

#### MFR Global rating agency

- Evaluated impact of financial inclusion initiatives in EMEA region, spanning Netherlands, Turkey, Moldova, Romania, Albania, Kosovo and Lithuania.
- Conducting Code of Good Conduct evaluation for the EIB SIFTA (InvestEU) programme, ESG Ratings and Client Protect Certifications for banks and NBFIs, visiting each assessed institution in the field.
- Updating internal tools and drafting reports for economic macro-context quantitative analysis and benchmarking.

Milan, Italy  
Dec 2022-March 2023

### Economic and Social Researcher

#### CISL Lombardia

- Usage of statistical tools to analyze economic data, delivering key insights regarding working conditions and gender inequalities.
- Designing surveys and experimental methods data collection and treatment.
- Researched labor market trends, informing strategic policy decisions about industrial labour market and welfare.

Milan, Italy  
March 2022-Oct 2022

### Analyst Intern

#### Cerved Master Services Spa

- Facilitated service provision for SPV, encompassing monitoring of regulatory activities such as supervisory reports and central risks.
- Conducted verification of first-level controls and oversight of activities delegated to outsourcers (SLA/KPI).
- Contributed to the preparation of periodic reports addressing anti-money laundering obligations.
